Dear Pioneer Valley Community,

The fall is finally upon us at 91.1 WMUA, which means our beloved stude are returning, helping fill out a very diverse and exciting schedule for the upcoming semester. We will be celebrating 60 years of broadcasting this year, culminating in an alumni reunion occurring in October.

For any new listeners finding out about WMUA, let me explain what we ar about. Since our inception, we have been dedicated to providing listeners with under-represented music of all genres, student-run news, and sports games from several of UMass' best athletic teams. Our public affairs DJ's reveal noteworthy issues from around the world, educating while entertain ing. The uniqueness of WMUA allows any listener to tune in at anytime an hear something fresh, different, and exciting. Our block programming only hints at the true brilliance of each of our shows.

This fall we have several new DJ's and shows on our airwaves. Our web- site, wmua.org, holds a very important aspect of WMUA: an MP3 web stream. The website also has a program guide, play lists, contact informa tion, and much more!

WMUA's existence would not be possible without all of the hard work of ev eryone here at WMUA. Our diverse programming is only a reflection of the people who have volunteered so much of their time to our station. Our on-air and behind the scenes staff consists of students, faculty, and mem- bers of the Pioneer Valley Community. WMUA is a great opportunity for people to get hands-on experience in broadcasting. *If you are interested volunteering here, take a trip down to the **UMass-Amherst** **Campus** **Center** basement and jump on in. Send us an email. Anyone can get in volved.*

On behalf of WMUA's DJ's, administrative staff and faculty, as well as our countless volunteers, I would like to thank you for tuning into a rare gem in the world of radio. In these tough times, when media is falling deeper into the world of consolidation, and free and independent thought are falling to the wayside, WMUA is the place to be.

Thank you,
Corey Charron
Program Director 08-09
